DETAILED ACTION

Allowable Subject Matter

Claims 12-20, 22-29 and 31 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art taken alone or in combination fails to anticipate or fairly suggest the limitations of the claims, in such a manner that a rejection under 35 USC 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 12 and 23.

Specifically regarding claims 21 and 30, Agata (6469839) teaches the state of the art of a projection system or method of supporting elements in a projection system.

But, Agata fails to explicitly teach either the first mechanical holder or the second mechanical holder is fixedly supported by the carrier and the other of the first mechanical holder or the second mechanical holder is movable relative to the carrier and the carrier is moved along with fixedly supported mechanical holder while the movable mechanical holder is held stationary relative to the chassis, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
